

COMMERCIAL AND PERSONAL HYGEINE PRODUCTS FOR THE TATTOO AND PIERCING INDUSTRY

According to the latest tattoo industry news and market analysis, the tattoo industry is still going strong in the US, with no signs of slowing down. Body ink has become much more mainstream thanks to celebrity trends and the overall higher visibility of tattoos in society. ESC Brands recognizes the need for products that can improve sanitary conditions in tattoo and piercing parlors as well as personal hygiene products that can aid in hygiene control and healing after tattoos or piercings have been applied. We have created the following products utilizing our proprietary formula Zetrissil®, a propriety nano silicone protective coating that's proven to kill 99.9% of germs and keeps the new tattoo artwork and piercings protected and moisturized long after application.

Doctor Ink's Topical Antiseptic

A USA, GLP (Good Laboratory Practice) manufactured nano silicone/ based, FDA registered, over-the-counter, 0.13% Benzalkonium chloride pre-priority formulation. Designed to promote rapid infection-free healing of newly-applied tattoo artwork and piercings, proven superior to current prescription and over-the-counter products available in the USA today. Formulated with our proprietary compound Zetrissil®, that controls wound bacterial contamination on new tattoo artwork and piercings and prevents drying and scarring.

Available in 2 oz. tubes

Doctor Ink's Topical Antiseptic Pain Relief Gel features the benefits of our topical antiseptic plus 4% Lidocaine, which reduces the pain of fresh tattoos and piercings.

Available in
1 oz. and 2 oz. tubes

Doctor Ink's Hand Sanitizer Foam

A non-alcohol, Zetrissil-based formulated hand sanitizer antimicrobial with FDA OTC approved Benzalkonium chloride (BAK) to help reduce the number of germs on hands. Free of strong fragrances and dyes with added aloe Vera to soften hands. A single application of Doctor Ink's Hand Sanitizer on the skin not only eliminates bacteria, but also prevents drying by maintaining a long-lasting nano-protective barrier that remains active for up to 4 hours.

Available in 2 oz. and 8.25 oz.

Doctor Ink's Sanitizing Soap

A unique FDA-registered Zetril-based formulated hand soap with FDA OTC approved Benzalkonium chloride (BAK) to help reduce the number of germs on hands. Free of strong fragrances, and dyes with added aloe Vera to soften hands. Helps support compliance with good hand hygiene practices, and is registered with the NSF for use in USDA-regulated food processing environments and ideally suited for the commercial and healthcare industry.

Available in 8.25 oz.

F.

Doctor Ink's Tattoo Repair Lotion

Doctor Inks Tattoo Repair Lotion contains "Zetrisil" to keep your expensive tattoo from drying and fading. It rejuvenates, moisturizes and repairs damaged skin. Ideal for old or sun damaged tattoos, it ensures a new healthy sheen. Doctor Inks naturally sourced moisturizers and vitamins are proven to lock in moisture for extended periods.

In less than 60 seconds after application, 99% of users noticed a new tattoo sheen, smooth, hydrated skin immediately, with visibly healthier skin around the tattoo. Doctor Inks Lotion is clinically proven to deliver immediate hydration and stop drying in excess of 24 hours.

Available in 4 oz. Tube and 12 oz. Pump Bottle

Doctor Ink's Laundry Complete

A nano-silicone formulation that was created as an additive to everyday washing needs. Doctor Ink's Laundry Complete comes in a convenient ready to use formula, which sanitizes, softens and deodorizes any machine-washable fabric's and keeps protecting for extended periods from a single washing. Just add to any washers fabric softener cycle and enjoy fresh clean results.

Available in 64 oz. and 128 oz. Drainback bottles

Doctor Ink's Power Wash

This unique cationic enhanced nano-silicone formulation is specifically designed for superior cleaning power and odor removal. Very effective against the most stubborn stains, with the added benefit of our cationic charged formulation that leaves the wash softer and odor free. Packaged in a convenient ready-to-use easy pour container. When used with Doctor Ink's Laundry Complete, this combination of products provides for the optimum in laundry cleaning and germ removal.

Available in 64 oz. and 128 oz. Drainback bottles

Doctor Ink's Parlor Disinfectant

Formulated with

Zetrissil®

A PROPRIETARY SILICONE QUATERNARY SOLUTION

A sensitive but very effective Zetrissil®-based Broad Spectrum Disinfectant that cleans, sanitizes & deodorizes any surface. Doctor Ink's Parlor Disinfectant (US EPA registration #94196-4) is passenger aircraft certified and is also ideal for sanitizing & deodorizing tattoo parlors, mass transit, cruise lines, hotels and nursing homes, with proven persistent protection after application.

Doctor Ink's Parlor Disinfectant is a fast-acting, cleaner, virucidal and deodorizer with proven extended protection after application.
