Cleans, kills & prevents mold & mildew regrowth

**Prevents Mold
Regrowth**

**Lasts up to
28 days**

**Non-toxic, Non-corrosive,
Bleach & Chlorine Free**

**EPA
Registered**

All types of mold & mildew are simple, microscopic organisms that exist unseen virtually everywhere. When moisture and nutrients become abundant, single mold or mildew cells will settle on a surface and begin to form colonies. Once started, a colony will grow quickly spreading across walls, furniture and fabrics. The build up of moisture can be a result of a number of factors, including persistent rain, flooding, leaky roofs, building maintenance problems or indoor plumbing problems.

my-shield Mold & Mildew is a safe and non-toxic antimicrobial solution that kills and prevents mold regrowth on all surfaces by forming a protective film that dramatically reduces mold and mildew regrowth for extended periods.

Safe for use on all surfaces

my-shield Mold & Mildew is an environmentally friendly non-toxic product that is safe to spray on any surface, including fabrics, carpets, walls, tiles, tents or tarps, to name a few. The transparent film it forms over surfaces continues fighting mold & mildew regrowth for up to 28 days in high mold & mildew environments and far longer in many environments.

Designed for multiple applications

my-shield Mold & Mildew has been designed as a pre-wash & post-wash treatment easily applied by pressure washing, spraying, wiping or fogging. It is suited for a wide range of areas where mold & mildew control is an issue including:

Public bathrooms, homes, hotels or other accommodation facilities

Industries where high temperature and high moisture environments create mold & mildew issues

Marine vessels with canopies, sails and other surfaces the suffer from the effects of mold

Rooms with humidifiers or similar devices that increase the moisture content in the air

Camping and leisure equipment that is to be stored or gets damp regularly

Prevents Mold Regrowth

Lasts up to 28 days

Non-toxic, Non-corrosive, Bleach & Chlorine Free

EPA Registered

PRODUCT COMPARISON'S

my-shield Mold & Mildew

Creates a long-lasting, barrier against mold & mildew

Safe to use on all surfaces

Safe to use on most fabrics

Non-Toxic

Helps to control mold & mildew odor

Environmentally friendly

Other Mold & Mildew Products

Have no long-lasting effect

Can harm and deteriorate surfaces

Will damage or stain fabrics

Highly poisonous & corrosive

Can leave a strong chlorine/bleach smell

Contain harsh chemicals
